Referral Process:

Private Patients: Please direct referrals to the specialist of choice.

"Non-Private Patients": Please direct referrals to the specialist of choice. Appointments are triaged on referral information and clinical urgency.

Note (**) an initial consulting fee may apply.

Where possible, patients should bring x-rays, pathology results, list of medications and details of carer (if relevant) when attending clinics or being admitted to the hospital.

This is not a comprehensive list of specialists with visiting rights to this hospital. Please contact Noosa Hospital on 07 5455 9200 to obtain a complete list of accredited specialists or to ascertain if your preferred specialist is accredited here.

Sunshine Coast Rehabilitation Services

RAMSAY
HEALTH CARE

Pain Management Rehabilitation

DO ANY OF YOUR PATIENTS EXPERIENCE ANY (OR A COMBINATION) OF THE FOLLOWING?

- Unresolved pain lasting longer than 3 months
- Interference by pain in areas of your life such as work, family, leisure activities, sport
- Reduced activity level due to pain
- Dissatisfaction with previous treatment for pain
- Reduced sleep quality as result of pain
- Increased reliance on smoking or alcohol to cope with pain
- Serious concerns that activity/work will increase pain

ADVERSE FEELINGS AS A RESULT OF PAIN SUCH AS:

- long-term low mood,
- loss of sense of enjoyment,
- more irritable than usual,
- feeling anxious or under stress,
- increased awareness of body sensations,
- unable to maintain sense of control,
- disinterest in social activity,
- feeling useless and not needed

PROGRAM OUTCOMES

Active participants in the rehabilitation program typically experience pain reduction and an improved sense of control over their condition, increased awareness and the development of active coping strategies.

AT DISCHARGE THE FOLLOWING OUTCOMES CAN ALSO BE EXPECTED:

- An individualised ongoing exercise regime
- A clear understanding of your diagnosis & prognosis
- An ability to independently use active self management strategies
- Development of correct movement patterns
- An ability to apply correct body mechanics to daily activities
- Improved mood management & psychological health

- Improved quality of life
- Development of a routine to promote a healthy balanced lifestyle
- Formulation of workplace strategies, to promote return to work
- Decreased reliance on passive therapies

HOW TO REFER

Referral to the service occurs through an individual's treating doctor, to a weekly assessment clinic with the Medical Director. Specialist Doctors can refer directly to Sunshine Coast Rehabilitation Services. Please fax referrals to 5449 9572.

HOW ARE COSTS COVERED?

Private Health Funds, Department of Veterans' Affairs, Workers' compensation, CTP Insurers and Income Protection Insurers often meet the cost of the program. Limited funding is available from Queensland Health for clients without any form of insurance. Self-funded clients are also welcome.
